

City, Country: City of Rijeka, Republic of Croatia

Project title: Government of Pupils – Rijeka Healthy City

Context:

The project Healthy City Rijeka comprised constitution of the first City Council and Government of Pupils in the Republic of Croatia, and today's convocation of councillors is actually the fifth term of the pupils from secondary and primary schools of the City of Rijeka.

The project includes seven secondary schools with total of 33 pupils and 3 primary schools with total of 12 pupils.

Target groups:

- Pupils of elementary schools – two schools from the city area and one from a suburban settlement
- Pupils of secondary schools – high, vocational and trade schools

Methods:

- Emphasis on topical problems of children and young people in the City of Rijeka
- Collaboration with local self – government
- Debate – to discuss or argue a question, or issue, or the like as in a legislative or public assembly

Outcome:

Through this project, the City of Rijeka provides children and young people a possibility of participating in development of community sustainability and active implementation of the project of "Healthy City"
